## RESEARCH SUMMARY

Physician-scientist and research fellow focused on surgical innovation, artificial intelligence in medicine, digital health, patient-centered outcomes, and surgical education. My work includes developing clinical research tools, leading multidisciplinary projects, evaluating online health information, designing AI- and computer vision-based studies, and translating clinical problems into practical scientific and technological solutions. My long-term goal is to become a surgeon-scientist who advances surgical care through innovative, evidence-based, and patient-centered approaches.

| 2014 – 2020 | Research Trainee – Student Research Committee \| Shiraz University of Medical Sciences | Shiraz, Iran | Participated in student-led clinical and translational research activities, including study design, data collection, manuscript preparation, and scientific collaboration. |

## WORK AT MAYO CLINIC

Dr. Shahriarirad is involved in approximately 40 projects across the Department of Surgery, including more than 30 IRB-approved studies and approximately 25 projects in active phases such as patient recruitment, data collection, data analysis, or manuscript preparation, with additional projects pending IRB approval or resource allocation. His work involves collaboration across Mayo Clinic surgical innovation programs with Drs. Cornelius Thiels, Janani Reisenauer, Simon Laplante, Aparna Vijayasekaran, Kitty Wu, Arman Arghami, and John Nathan.

His contributions vary by project and include study conceptualization and design, research question development, methodology planning, IRB preparation, data acquisition and curation, statistical analysis, manuscript drafting and editing, project coordination, operating-room device demonstrations, and patient recruitment.

His collaborative technology and innovation work at Mayo Clinic spans surgical visualization, artificial intelligence, robotics, digital pathology, wearable monitoring, rehabilitation, and surgical education. These efforts include ApoQlar/Apple Vision Pro for real-time stereoscopic 3D robotic visualization; GoNoGoNET for AI-assisted surgical video analysis and safety-zone identification; ALARM/OmniWatch for wearable-based postoperative monitoring; JelloX for 3D digital pathology; INTERCEPTION and Alpenglow for robotic bronchoscopy, biopsy, and molecular sampling; CTA Perforator for computer vision-based reconstructive planning; ExerAI and Bioness for rehabilitation and gait assessment; bariatric surgery and ECG-based prediction models for precision surgical risk assessment; MOSI System for obesity staging and bariatric decision support; Lexo Drain for surgical device innovation; and robotic surgery curriculum development to improve resident training and educational quality.

## AWARDS

| Year | Award | Organization |
|---|---|---|
| Sep 2026 | Team Collaboration Award (Project Lead) | Mayo Research Fellows' Association |
| Dec 2023 | World's Top 2% Scientists | Elsevier Data Repository / Stanford |
| Oct 2020 | National Outstanding Student Researcher | Iran Ministry of Health and Medical Education |

## LEADERSHIP & COMMUNITY SERVICE

| Period | Role | Organization | Description |
|---|---|---|---|
| Sep 2026 | Teaching Assistant – ACS Clinical Congress 2026 Hands-On AI Course (Computer Vision Session) | American College of Surgeons Clinical Congress 2026, Washington, DC | Taught in the computer vision session of the ACS hands-on course “AI Skills: What Can I Do Now and What's Coming in the Future?” as part of the A-Star Lab faculty team, alongside faculty from Moonshot AI and Stanford University. Guided surgeons and clinicians as they annotated laparoscopic cholecystectomy frames in teams, labeling anatomy and instruments, then trained models on their own labels and compared the results side by side to see how annotation quality shapes what AI learns to see. |
| 2026 – Present | Mayo Research Fellows' Association Quality Improvement Committee | Mayo Clinic, Rochester, MN | Contributes to quality improvement initiatives supporting research fellows and trainee experience at Mayo Clinic. |
| May 2026 | Trauma Center Injury Prevention – Bike Rodeo / Bike Safety Program | Rochester, MN | Participated in a community injury-prevention and bike-safety program focused on education and safety awareness. |
| 2026 – Present | Mayo Research Fellows' Association Mentor–Mentee Program | Mayo Clinic, Rochester, MN | Supports mentorship and professional development for research fellows through the Mayo Research Fellows' Association (MRFA) mentor–mentee program. |
| 2024 – Present | Oraculi STEM Mentor – John Adams Middle School Science Fair | Rochester, MN | Mentors students through STEM and science-fair activities, supporting early exposure to scientific thinking and research methods. |
| 2020 – Present | Research Project Manager and Mentoring Program | Thoracic and Vascular Surgery Research Center, Shiraz University of Medical Sciences, Shiraz, Iran | Founded and directed a research mentoring program at the Thoracic and Vascular Surgery Research Center, mentoring 15 medical students in research methodology, scientific writing, and publication strategy, with participating students contributing to more than 50 peer-reviewed publications. |

## SKILLS
